CD 126:29 Arturo Mendez Rodriguez

The Feebees took Andrews seriously enough to do at least some looking for that Mexicano. What would be interesting is knowledge of why they sought Mendez out.

Is he a Mexican?

I recall no other such reports, of the quest for the Mexicano. One could not talk to Andrews without knowing the importance he put on this character, and the influence he says the Mex exerted over LHO.

If there is an original report, it might be worth looking at. It might say what this does not.

Other parts of this file, reflecting other parts of the N.O. "investigation", esp. the lit dist, are rather unimaginative fiction.
